

Applications

- construction element for vibrating structures
- resilient suspension of gears, pumps, fans, tanks, exhaust systems ...

Description

- high static and dynamic load capacity
- material: stainless steel wire
- long lifetime
- resonant frequency: 15 - 20 Hz

Cushions listed in the table below are a small selection only.

Elements with other dimensions are available on demand.

type	dimensions in mm					static load in daN
	Ø D1	Ø D2	Ø d	H	h	
GKB-15-2	30,0	24,0	14,5	15,0	11,0	5 – 15
GKB-35-1	38,0	20,5	12,0	16,0	11,0	5 – 35
